

— SPECIAL OFFER —

FIBER OPTIC BUNDLES

The campaign period
has been extended to
November 15th, 2020!

Your start in fiber optic technology ...

... now with special package discounts!

Our established cooperation with the South Korean quality manufacturer Inno Instrument allows us to offer you a complete range of products and services of the highest quality in the field of fiber optic.

Only at KWS are there now two attractive technology packages that give you the complete equipment you need to get started in all disciplines of fiber optic technology—whether it's a satellite system, building distribution or data center.

With this special offer, limited until September 30th 2020, you save about 25%—a unique opportunity!

All devices and tools are easy and intuitive to use. However, we also offer suitable seminars (thematic basics as well as device-specific training) to make your start even easier—currently in the form of webinars.

Interested? Then order at info@kws-electronic.de. And let's get started!
